

Thanks to EASchangesystems the clamping and release of molds and dies has become a process of minutes instead of hours.

EASchangesystems offers quick clamping and quick changing systems for plastic injection molding machines (QMC) and metal stamping presses (QDC), as well as multi coupler solutions. The company also offers consulting and engineering expertise to ensure maximum machine productivity.

Being a truly global enterprise, EAS has a large sales and service presence on every continent thanks to dedicated partner companies and their local distributors.

Working at EAS

The EAS corporate culture is characterized as open and friendly, with short communication lines. Getting the best result transcends hierarchy. Initiative and responsibility is expected and appreciated.

And so is having fun.

If you want to learn our history, mission and core values, read more [about EAS](#). That's where you'll also meet the executive team of EAS Change Systems. View our global presence and offices in [EAS Worldwide](#).

Unsolicited application

EAS is always interested in qualified and motivated people in engineering, manufacturing, sales and service functions. If you have the passion to work in a demanding, international and challenging customer oriented environment, we would like to hear from you.

Feel free to contact us if you are motivated to help us grow our business and at the same time find great personal reward in being employed by one of the most innovative companies of the industry.

How to apply

To gain a good first impression, we would like to receive an overview of your qualifications, personal information and motivation. Contact our HR department and present the key details and facts about yourself, your qualifications and your career.

Talk to you soon!
